Changes to the PASRR Comprehensive Service Plan

HHS PASRR Staff

September 2019

What's New With The PASRR Comprehensive Service Plan (PCSP)?

TEXAS
Health and Human
Services

TEXAS
Health and Human
Services

A2500 B Attendance

If a Habilitation Coordinator has been assigned, there are certain meeting types that the Coordinator has to attend in person (Initial, Annual and Quarterly).

If there is not an assigned Habilitation Coordinator, use A2500 A 2 for LA-IDD.

A. I certify that the need for all habilitative therapies (not rehabilitative therapies) were discussed.	<input type="checkbox"/>	<input type="checkbox"/>

Disposition of Specialized Services

TEXAS
Health and Human
Services

You will now only be required to address the Specialized Services the individual is eligible for based on their PASRR condition.

A2800, A2900, A3000, A3100 drop-down fields may be grayed out in column 2 of each of these sections based on the information noted on A2400.

TEXAS
Health and Human
Services

Pending Medicaid/Under 21

For individuals who do not have Medicaid at the time of the meeting or are under the age of 21, use "Pending" as the drop-down choice instead of "Not Needed".

This change indicates that as soon as the individual receives Medicaid or turns 21 years of age, the services can begin.

TEXAS
Health and Human
Services

Pending Medicaid/Under 21

You must use the comment boxes to describe how the individual can obtain needed services while pending eligibility.

Once Medicaid is established and/or the person turns 21, an update meeting can be held to discuss services and to change the disposition.

Additional Mental Health Services

TEXAS

Error Message Changed

When completing any text box on the PCSP, the following characters are allowed: 0-9, A-Z, a-z, and @'/+, -.

If you attempt to enter anything other than the accepted characters, you will receive this message:

“(field name) “contains invalid alphanumeric characters. Alphanumeric characters are limited to: 0-9, A-Z, a-z, and the following characters @'/+, _-.”

Comment Boxes

Sections A3200 and A3300 are for the Nursing Facility and the Local Authority (LA) to record comments. They have been increased in size to allow up to 1000 characters.

Comments are required to address services indicated as "Not Needed", "Discontinued" or when "Pending" is used for individuals pending Medicaid or under 21.

TEXAS
Health and Human
Services

LA Confirmation

The form has been adjusted to allow both the LIDDA and the LMHA/LBHA to confirm services and attendance on the initial/annual Interdisciplinary Team (IDT)/Service Planning Team (SPT).

Before the enhancement, only one LIDDA or LMHA/LBHA could confirm and submit the form.

TEXAS
Health and Human
Services

Concerns with PCSP

LAs are submitting PCSP forms as quarterly reviews when the meeting type should have been indicated as an annual or initial meeting.

NFs are trying to submit annuals after a quarterly when the annual is not due yet. The system will not accept these.

Communication IDT/SPT Meetings

TEXAS
Health and Human
Services

Communication is Key!

At the start of the meeting, identify the type of meeting being held.

Discuss who will enter the form information into the portal.

Work together to schedule meetings.

Review Needed

Before you start the meeting, determine Medicaid eligibility and age.

Review the demographic information on the PASRR Level 1 Screening and PASRR Evaluation (PE) to ensure it is accurate.

Information from the PE is used to populate the PCSP form. If the information (DOB, SSN, Name, Medicaid and Medicare numbers) is wrong, the information on the PCSP will also be wrong.
