How do I approve or cancel a batch?

In the MDS analysis report, click “Approve” to send your batch to CMS or “Cancel” to make revisions in your HER and then and re-batch

What is the MDS Transmission Policy?

Policy designed by individual facility

Approval only by authorized staff

SimpleAnalyzer™

- Always Transmit** – Automatically approve all batches regardless of analysis results
- Review Critical** – Require approval if critical rule is flagged
- Review Flags** – Require approval if critical or warning is flagged
- Always Review** – Require approval on all batches regardless of analysis rules

Transmission to CMS

How do I select which rules stop my batches?

1. Contact SimpleLTC support to configure your policy:

- Always Transmit
- Review Critical
- Review Flags
- Always Review

2. Configure specific rules for your facility:

- Review **Critical** (stops “critical” flags only)
- Review Flags (stops “critical & status”)
- Always Review (stops all assessments for review)
