Keeping up with CMS

PDPM tracking, Case Mix updates, unfreezing QMs and more...

TUE, OCT 15 | 1 PM CT

simple.

Ethan Tayne
Solution Strategist

simple.

- New tools to track PDPM for OBRA

- Thawing your frozen QMs

simple.

New Features for Case-Mix Analytics

- New category of scrubber rules "**PDPM for OBRA**"
  - Choose to enable PDPM related rules that should be evaluated for OBRA assessments (A0310A = [01-06] and A0310B = [99]).
  - Allows you to choose rules applicable to your state payment specifications.
    - i.e. Rules related to all components are important for Part A stays but other payors may use only NTA and Nursing related data points.

- New dashboard report "**Clinical: Case Mix Explorer**"
  - Facility level aggregates for average CMI values and trends compared to network wide benchmarks.
  - Resident level detail highlighting changes in CMI over the course of the stay.
